Ms. Lesley McCullough, Acting Chair
Yukon Utilities Board
Box 31728, Whitehorse, YT Y1A 6L3

Dear Ms. McCullough:

Re: 2023/24 GRA Proceeding – Yukon Energy Cost Claim

Yukon Utilities Board (“Board” or “YUB”) on July 12, 2024, issued its Order 2024-05 in relation to Yukon **Energy Corporations (“YEC” or “Yukon Energy”)** 2023/24 General Rate Application (2023/24 GRA). YEC is seeking approval of costs incurred in relation to the 2023/24 GRA.

Attached please find YEC’s **filing and supporting information for costs related to the 2023/24 GRA**, including the following material (Appendix A):

- An Affidavit of Fees and Disbursements (Form 4);
- A Summary of Total Costs Claimed (Form 1);
- A Summary of Professional Fees Claimed (Form 2); and
- A Summary of Disbursements Claimed (Form 3).

Also attached is relevant supporting documentation for the above-noted costs incurred, including summary tables, invoices, receipts and timesheets (Appendix B), and documentation to support the professional experience of legal counsel and consultants retained by YEC to provide assistance in this matter (Appendix C).

The total claimed amount included in Form 1 of Appendix A is \$599,601.76, including \$217,888.72 for legal fees; \$376,682.05 for consultant fees and \$5,030.99 for disbursements. The amounts awarded for this Proceeding will be included in the Hearing Cost Reserve Account and addressed at the time of the next General Rate Application.

Summary of Applicant Costs

Applicants have a separate and distinct role from intervenors in the public review process and separate types of activities, requirements and costs must be incurred by Applicants that are not incurred by intervenors, specifically:

- Applicant costs are incurred as a necessary part of its business or operations as a regulated utility;

- Applicants begin to incur costs related to their application prior to a formal process with the YUB commencing, i.e., costs to prepare and file an Application;
- Applicants that require a review or approval by the YUB must engage in the formal review process and cannot realistically limit their level of participation in the process, i.e., applicants must address all issues and questions raised by intervenors and the Board as they arise;
- An applicant must participate actively in the process and typically cannot reasonably coordinate with others to increase efficiency or reduce duplication.

Yukon Energy submits that all costs as applied for are reasonable and necessarily incurred in order to prepare and support its Application. Further detail and justification for professional costs (legal and consulting), as well as disbursements, are provided.

Justification of Applicant Costs

In determining the breakdown between “preparation”, “hearing attendance” and “argument, reply and follow-up”, Yukon Energy has followed the practice established during past YUB review processes and used the following basic organizational structure:

- Preparation includes activities related to the preparation of the Application filed on August 31, 2023, and preparation of responses to two separate rounds of information requests (IR) filed on November 29, 2023 and January 25, 2024 and any related follow-up that occurred including multiple motions for further disclosure and IR revisions, as well as preparation for the oral hearing process.

It is noted that the regulatory process required an extensive amount of effort from YEC, its consultants and legal counsel in order to respond to a significant amount of IRs. In an attempt **to promote regulatory efficiency and minimize preparation costs, YEC’s Application Letter** requested limited intervenor (non-YUB) requests to a maximum of 50. However, there were 921 Round 1 IRs and 199 Round 2 IRs, as well as two rounds of motions for further disclosure. IR processes require a considerable amount of coordination to review and allocate IRs; review responses provided in order to finalize them; and then package them into IR consolidations that include hyperlinks. The total volume of documentation provided on the record during the IR process was more than 1,300 pages.

- Hearing Attendance covers attendance, review of transcripts, preparation of response to undertakings during the oral hearing process, and other related activities undertaken during the oral hearing held on March 4-7, 2024.
- Argument/Reply and Follow-up covers the period from March 7, 2024 to April 2, 2024, the date the reply argument filed, and includes preparation of response to remaining undertakings, preparation of final and reply arguments.

Summary tables of costs incurred are provided as Appendix A and Appendix B to this filing.

1. Legal Fees

As in past hearings and regulatory processes, Yukon Energy retained DLA Piper as legal counsel, with P. John Landry and Jason Herbert providing the legal services required. A copy of the confirmation of the retainer is provided as Appendix C to this letter.

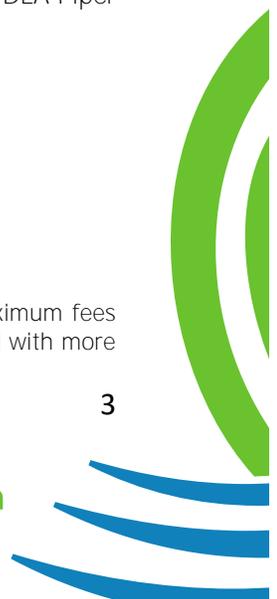

Mr. Landry and Mr. Herbert provided the following relevant assistance to Yukon Energy in relation to the preparation, filing and review of the Application:

- Review the Application;
- **Review of information requests by intervenors and of Yukon Energy's responses to information requests;**
- Assistance in preparations for the oral hearing;
- Attendance at the oral hearing;
- Review of final argument and reply arguments; and
- Providing legal advice as required during the proceeding.
- Significant extra effort was required to address the matters outside of the scope of this proceeding, including unsupported claims and accusations made by Mr. Yee in his evidence and during the hearing preparations and process. **Mr. Yee's persistence in consistently taking positions and pursuing lines of argument that are for other regulators to deal with, making it practically necessary for YEC to respond and to incur unnecessary expenses.** YEC had no choice but to defend itself.

Mr. Landry and Mr. Herbert were assisted by Mr. B. Herbert and an articling student regarding specific legal questions raised by intervenors during the review process.

Pursuant to the Scale of Costs and prior Board direction¹, professional fees for legal services included in the Yukon Energy cost award application do not exceed the established \$350/hour limit for Mr. Landry and Mr. Herbert. The summary of professional fees, excluding disbursements, by activity stages for DLA Piper is as follows [see Appendix A, Form 2 for details]:

¹ Order 2012-09 on costs noted costs for legal counsel used by the Applicant should be subject to maximum fees based on the number of years of experience pursuant to the Scale of Costs (i.e., \$350/hour for individual with more than 12 years at the bar). Both Mr. Landry and Mr. Herbert have over 20 years of relevant experience.

Phase	Hours	Total fees allowed by Scale of Costs (\$CAD)
Preparation	439.75	152,736.50
Attendance	63.00	22,050.00
Argument, Reply & Follow-up	108.20	37,870.00
DLA Piper Fee Total	610.95	212,656.50

Preparation includes legal participation in witness preparation which was required as the panel included a number of new witnesses with very little (or no) testimony experience. Time required for Mr. Landry and Mr. Herbert to undertake witness preparation (including review of the hearing process and issues, etc.) is considered reasonable and necessary and contributed to an efficient and effective regulatory process.

2. Consultant Fees

InterGroup Consultants Ltd.

Yukon Energy retained InterGroup Consultants Ltd. as primary regulatory consultants to assist with the preparation of the filing and the review process before the Board. A copy of the confirmation of the retainer is provided in Appendix C.

InterGroup was involved in the preparation of the Application and with the drafting, coordination, review and finalization of interrogatory responses and final submission. This included the following specific activities:

- Preparation of the Application – Including drafting with a main focus on Tab 5 and capital project business cases to address the Board previous directives, and coordination of review and finalization of material with Yukon Energy and formatting for filing.
- Active participation in the review process before the YUB – Assistance with the preparation of interrogatory responses, including coordination with YEC and legal counsel, and overall process management and progress tracking during the IR preparation period.
- Preparation sessions with YEC and its legal counsel, as well as preparation of any other necessary materials for the oral hearing, including the written opening statement.
- InterGroup provided support to witnesses prior to and during the hearing by providing and reviewing briefing materials for witnesses. This support was considered reasonable and necessary and contributed to an efficient and effective regulatory process.
- Support during the Oral Hearing process – Support to YEC during the oral hearing, including support in preparation of undertakings and other submissions provided during the oral hearing, and any other support as required.
- Argument and Reply - Assistance with drafting, review and finalization of Argument and Reply.

InterGroup costs for the above-noted services primarily cover the participation of Cam Osler (Principal and Consultant with over 40 years of experience), Mona Pollitt-Smith (Principal and Consultant with over 20 years of experience) and Abiola Asaolu (Consultant with over 5 years of experience). CVs for the above InterGroup staff are provided in Appendix C. During all phases of the regulatory process, these individuals provided support generally as follows:

1. Mr. Osler provided an overall senior review for regulatory/ technical issues and input into final drafts of materials (submission, IRs, argument) **and participated as part of YEC’s panel during the oral hearing.**
2. Ms. Pollitt-Smith, in addition to document drafting/ IR drafting as required, provided overall coordination (within InterGroup, YEC and legal counsel).
3. A. Asaolu provided technical and research support as required, including support in progress tracking during the IR preparation period.

InterGroup team members contributed to development and review of material – however, this effort was not duplicative, but required to ensure that specific experience/ expertise was brought to bear in the development, review and finalization of materials. Every effort was made to avoid duplication between team members and tasks. Even with significant extra time in this GRA required to address the claims and accusations made by Mr. Yee in his evidence and during the hearing preparations and process, InterGroup **hours were 38% less than YEC’s 2021 GRA** which had only one test year.

InterGroup’s firm hourly rates are set separately for all staff members, and rates for Principals or Consultants do not include costs for clerical, administrative or research staff support as directly provided for any assignment. Firm hourly rates do not vary when overtime is required. All InterGroup regulatory consulting staff billing rates are within the established \$/hour limit based on each individual’s years of working experience and consequently no hourly rate adjustment is necessary.

Consistent with the previous Board directives during the cost claim review, for the purposes of this cost claim filing, Yukon Energy did not include cost recovery for costs **related to InterGroup’s** administrative personnel.

The summary of professional fees, excluding disbursements, by activity stages for InterGroup is as follows [see Appendix A, Form 2 for details]:

Phase	Hours	Total fees allowed by Scale of Costs (\$CAD)
Preparation	1,418.00	307,155.00

Argument, Reply & Follow-up	165.75	41,762.50
InterGroup Fee Total	1,656.75	364,760.00

Aasman Brand Communications

Yukon Energy retained Aasman Brand Communications during the preparation of the Application with a main focus on Tab 1 and to assist with media/communication related activities, including preparation of news releases and advertisements related to the Application, workshop and hearing.

All Aasman Brand Communications staff billing rates are within the established \$/hour limit based on each **individual's years of working experience and consequently no hourly rate adjustment is necessary.**

The summary of professional fees, excluding disbursements, by activity stages for Aasman Brand Communications is as follows [see Appendix A, Form 2 for details]:

Overbooking of Flights

Airline flights may be overbooked, and there is a slight chance that a seat will not be available on a flight for which a person has a confirmed reservation. If the flight is overbooked, no one will be denied a seat until airline personnel first ask for volunteers willing to give up their reservation in exchange for compensation of the airline's choosing. If there are not enough volunteers, the airline will deny boarding to other persons in accordance with its particular boarding priority. With few exceptions, including failure to comply with the carrier's check-in deadline mentioned above, persons denied boarding involuntarily are entitled to compensation. The complete rules for the payment of compensation and each airline's boarding priorities are available at all airport ticket counters and boarding locations.

Please familiarize yourself with check-in/baggage drop-off as well as boarding gate deadlines (see table below) as they apply to your destination.

Failure to respect these deadlines may result in the reassignment of any reserved seats, the cancellation of reservations, and/or ineligibility for denied boarding compensation.

Important:

- If you are travelling on a [codeshare flight](#), please familiarize yourself with the other airline's policies on check-in times and procedures.

Check-in Tip: To avoid airport line-ups, try our convenient [Web Check-in](#), [Mobile Check-in](#) or our self-service [Check-in kiosks](#) available at most airports used by Air Canada.

Overbooking of Flights

Airline flights may be overbooked, and there is a slight chance that a seat will not be available on a flight for which a person has a confirmed reservation. If the flight is overbooked, no one will be denied a seat until airline personnel first ask for volunteers willing to give up their reservation in exchange for compensation of the airline's choosing. If there are not enough volunteers, the airline will deny boarding to other persons in accordance with its particular boarding priority. With few exceptions, including failure to comply with the carrier's check-in deadline mentioned above, persons denied boarding involuntarily are entitled to compensation. The complete rules for the payment of compensation and each airline's boarding priorities are available at all airport ticket counters and boarding locations.

Please familiarize yourself with check-in/baggage drop-off as well as boarding gate deadlines (see table below) as they apply to your destination.

Important:

- If you are travelling on a [codeshare flight](#), please familiarize yourself with the other airline's policies on check-in times and procedures.

Check-in Tip: To avoid airport line-ups, try our convenient [Web Check-in](#), [Mobile Check-in](#) or our self-service [Check-in kiosks](#) available at most airports used by Air Canada.

Overbooking of Flights

Airline flights may be overbooked, and there is a slight chance that a seat will not be available on a flight for which a person has a confirmed reservation. If the flight is overbooked, no one will be denied a seat until airline personnel first ask for volunteers willing to give up their reservation in exchange for compensation of the airline's choosing. If there are not enough volunteers, the airline will deny boarding to other persons in accordance with its particular boarding priority. With few exceptions, including failure to comply with the carrier's check-in deadline mentioned above, persons denied boarding involuntarily are entitled to compensation. The complete rules for the payment of compensation and each airline's boarding priorities are available at all airport ticket counters and boarding locations.
